

Summer 2008

Dear Parent/Child Weekend Campers:

Thank you for registering for a Parent/Child Weekend at Camp Nan A Bo Sho. These special weekends continue to grow every year. They promise to be a good time for you and your child(ren).

Enclosed in this Parent/Child Weekend Packet is information that will help prepare you for your experience at Camp Nan A Bo Sho. Also enclosed are general details regarding our schedule for the weekend.

We ask that you plan to participate in all activities with your child(ren). Our staff are on hand to teach and assist in camp activities and to help supervise the children when needed.

Camp Nan A Bo Sho is located 90 miles north of Appleton in Lakewood, Wisconsin; a map is provided for your convenience.

We look forward to meeting you. If you should have any questions not addressed by this packet, please feel free to call the Camp Office in Appleton (920) 954-7639 or Camp at (715) 276-6084, or e-mail us at campnabs@ymcafoxcities.org or visit us at www.ymcafoxcities.org.

Sincerely,

Rob Rathsack

WHAT TO BRING: Campers at Camp Nan A Bo Sho sleep in cabins. Each cabin has double deck bunks and mattresses. Campers must provide their own pillows and sleeping bags. Sturdy, comfortable clothes are encouraged. Laundry service is not provided. Old tennis shoes, the type parents like to throw away, are the suggested footwear for canoe trips. A checklist is enclosed for your convenience.

HEALTH FORM AND CHECK LIST: Enclosed please find a Health History and Information Form which should be completed for EACH PERSON ATTENDING CAMP (both parent and child(ren)). This will insure the needed information is on hand should an illness or accident occur while you are at camp. Because you will be at camp with your child(ren) a signature from a doctor is not required for Parent/Child weekends. Please return this form to the Downtown Appleton YMCA 4 weeks prior to your attendance at camp. Since Camp does not have an individual Campers Insurance policy, **YOU MUST ACCEPT RESPONSIBILITY FOR MEDICAL/SURGICAL TREATMENT CHARGES WHICH MAY BE INCURRED ON YOU OR YOUR CHILD(REN)'S BEHALF.**

LYME DISEASE UPDATE

It is very important for you to understand the symptoms of Lyme Disease and for your child to understand the importance of regular tick checks and report any findings to the staff while they are at Camp Nan A Bo Sho.

Medical experts estimate that approximately 1/3 of the deer ticks in Wisconsin are infected with the Lyme germ. It has also been found that the longer the tick is attached to the host, the greater the chance for transmission of the disease. This is why early detection of a tick is vitally important to prevention of the disease. While your child is attending Camp Nan A Bo Sho this summer, they will be reminded to conduct nightly tick checks of themselves and others. Staff members will assist children in making these checks. In addition, children will be required to shower regularly.

Other preventative measures to avoid the deer tick include:

- *Walk in the middle of trails (avoid walking through brush when possible).
- *Wear lightly colored tightly woven fabrics (so they are easier to see).
- *Wear collars turned up (so ticks dropping from air won't be able to crawl into your shirt).
- *Tuck pants into boots or socks (to keep ticks from crawling up legs).

If your child finds a tick on his/her body, please have him/her alert staff, who will remove the tick. Upon the child's return from camp, launder all clothing and the clothing container immediately. If this is not possible, keep the clothes separate from areas frequented by humans until laundering is possible.

Lyme disease usually develops within days or weeks of the tick bite. If your child experiences flu-like symptoms in the weeks following their camp visit, it may be the early stages of Lyme Disease. At this stage, Lyme Disease is easily treatable with antibiotics.

As with any exposure to the outdoors, a tick bite is a possibility. Please seek out additional information about Lyme Disease and discuss the importance of regular tick checks with your child. Fortunately, in the past eleven years, we have not been notified of a child contracting the disease. For more information call: 1-800-362-9900.

I hope we can continue this trend by sharing knowledge about the disease and its prevention.
